

Get Customers On A Budget

Intro

You just have to know 3 things.

KNOW YOUR IDEAL CUSTOMERS PROFILE

Do your customer profile.

KNOW YOUR
MARKETING PLAN

What you're going to do when and where.

KNOW WHAT'S WORKING

Test and measure your results vs your spend each month and re-invest in what's working.

Know Your Customers

Get To Know BOB

Sit down with your team and build a BOB profile

Bob is the name of your ideal customer

Who are we talking to?

Write it down as if you were building your own avatar. Once you've done this you can align your message and medium to match your Bob avatar.

Know Your Marketing Plan

Do a Proactive **90 day** marketing plan for the next 90 days ahead. Using your Bob customer profile you create the following 5 columns to support your plan: Medium – Message – Spend – Content – ROI

- ldentify your costs per **medium** to promote your product/service.
- Work out what **message** you want to say whether it's brand awareness, call to action or relationship building. Now simply test + measure different mediums in order of what you think is the best marketing strategy to the least. Don't do them all.
- 3 Do 3 for the first 3 months. Then measure.
 Start with your online presence or your shopfront and build your marketing plan from that foundation out.

 Eg: How do I promote my store in the most cost effective way to my immediate surroundings and existing relationships?

 Then Get Social. You can setup + promote content in one day and virtually pay nothing for it. Now you have a marketing plan.
